

2022 ATMS Practicum Topics

Sent out January 24, 2022

Greetings everyone,

I am looking to develop the following areas for this year's ATMS CDE:

Welding – Stick welding on steel

Small engines – operation and troubleshooting

Electrical – wiring branch circuits

Environmental – contour lines and soil survey

Machinery and equipment – hydraulic systems

Team – concrete: estimating, mixing, and forms

As I get more information, I will share with those who plan to participate so please respond to me if this is in your plan.

Thank you.

Joe Linthicum
