

January 26, 2024

Greetings all,

As the 2024 CDE season get under way, list below are the general guidelines for the skills areas of the ag mechanics competition.

Structural - SMAG (stick welding) on mild steel

Electrical - Branch circuits

Small engines - Operation and trouble shooting on OHV engines

Environmental & Natural Resources - Use of transits and slope determination affecting erosion and runoff

Machinery & equipment - Skid steer loaders: parts id, operation, and material handling

Team activity - mowers: rotary, tractor mounted, or zero turn - operation and maintenance

Joe Linthicum
